

Greenbush Greenhouses and Farm

..... 2022 Collection

Veggie and Herb Plants | Flower Baskets | Custom Growing | Dried Culinary and Medicinal Herbs | Fresh Produce | Edible Flowers

About

We are a small business that loves growing plants and sharing the joy with our customers – it's that simple. Each flower, herb, and veggie gives us the means to share our belief that plants should be grown sustainably and in harmony with the Earth, that plants should nourish the mind as well as the body, and that communities can flourish with support. And to think, that's all wrapped up in every plant that we grow!

We are named after a spectacular and precious lake called Greenbush Lake in the Monahsee Mountains. It is truly a gem, and we enjoy paddling it in our kayaks!

Greenbush Greenhouses and Farm is located in the Mabel Lake Valley just outside of Lumby, BC. Our greenhouses aren't open to the public. We retail out of local farmers' markets and have curbside pickup in Lumby.

We offer many different quality plants for various markets:

- We offer a spring fundraising program for clubs, schools, and other organizations which consists of flowering hanging baskets and herb bowls.
- We have a line of vegetable transplants and specialize in culinary and medicinal herb plants.
- We offer specialty produce and edible flowers retail and wholesale to restaurants.
- We do custom growing and custom containers.
- Also, we consult on pest management and growing practices for various crops and growers.

For retail sales check us out at the Vernon Farmers' Market on Mondays and Thursdays. For wholesale orders or questions, please contact us and we would be happy to help.

Growing community and environmental wellness.

Contents

Contract Growing - Custom Containers

Greenbush Greenhouses will create inspiring custom containers and hanging baskets for every season. Our distinct designs will compliment your home, outdoor living space or business. Either bring us your favorite containers or we can supply them for you. We will plant them (traditional or modern), grow them in our greenhouses and deliver them to you just in time for spring. Whether they are flowers, herbs or veggies containers, add colour, texture and fragrance to your outdoor or indoor living space.

Our custom container program aims to be sustainable and affordable. We encourage that you supply your own containers and reuse containers when possible. Use your imagination and find an unique, and artistic container. What ideas can you come up with? Whether your containers is formal, unique, reused or funky ,we can plant it up for you. Or if you wish, we can provide a container for you.

For a quote please contact us at 250-718-1445 or greenbushgreenhouses@gmail.com

Dried Culinary and Medicinal Herbs

We have an assortment of dried herbs that can be used for cooking, or medicinal purposes from soaps to teas, to tinctures, lotions and so forth. We also sell edible flowers. For a complete list, please contact us. We are working on inventory and adding them to the catalogue. We also sell edible flowers. Perfect for cakes, restaurants and so many fund things.
